WHAT'S NEXT

Please read through this document and familiarize yourself with the tools and schedule for the hackathon.

1. Keep your eyes on your inbox for the following:
   - Email from no-reply@bemyapp.com or no-reply@bemyapp-mail.com with instructions to log into the CFG platform(cfg.bemyapp.com/c4g.bemyapp.com)
   - You will be onboarded on to either one of these resources during your briefing and alignments, Please refer only that link!
   - Email notification of your inclusion to your team's GitHub repository
   - Invite to the event Slack workspace

2. **Please add your Team # to your Display Name** on all the CFG platforms (see below) so it's easier for us to find and help you in any situation.

TEAMS	Code for Good is a great opportunity to make new friends, expand your network, and gain new perspectives that will help you grow as a technologist and create the best possible solution. We will be forming the teams based on your answers in the application and will share your team information on the CFG platform before the event kicks off.
HACKATHON PLATFORM & OTHER TOOLS	cfg.bemyapp.com/c4g.bemyapp.com This will be where you can find resources for the hackathon. You will find the schedule, your teams project page (where you will upload the final presentation), and much more! Once you join the platform, you should be able to identify your team number – **please add the Team # to your Display Name** so it's easier for us to find and help you in any situation. **Log-in:** You will receive an email from no-reply@bemyapp.com with instructions on how to log into the CFG platform (cfg.bemyapp.com/c4g.bemyapp.com). Please test your access before the event and if you have any issues you can reach out to us on slack using the ask for help channel!
	Zoom You will be using Zoom throughout the event to run collaboration sessions with your team as well as partake in several activities. Each Team will have its own zoom ID where you will work out of an collaborate with your teammates and volunteers. All relevant details will be available on the CFG platform cfg.bemyapp.com/c4g.bemyapp.com. **Please add your Team # to your Display Name** so it's easier for us to find and help you in any situation.

GitHub

Every team will be provided with a private GitHub repository. For team members not familiar with Git or who just want to brush-up on their knowledge, GitHub offers a basic interactive tutorial going over the commands you will need for the event, found here: https://try.github.io/levels/1/challenges/1

One of the workshops we ran for the students to use git during the event and common FAQ's were answered, you can visit here to watch the recording:

Introduction to Git - Password: Codeforgood2021

Please note that repos will become public after the event and we ask that students ensure that API keys, passwords and other sensitive information are not committed. A high-level tutorial on the .gitignore file (which lists files to exclude from a repo) can be found here: https://www.atlassian.com/git/tutorials/gitignore

Slack

The Code for Good team will invite you to the **Code for Good Slack workspace** where we will share announcements, you can reach out for help, and set up private channels with your teams and Team Mentors!

Please add your Team # to your Display Name so it's easier for us to find and help you in any situation.

FUN STUFF

We will be running fun games and activities during the event and we encourage you to take part in them when you feel like taking a break! All details will be available on the Slack workspace.

CONTACT US

Platform or event related questions: **Ask us on the ask for help channel on Slack!**

Zoom helpdesk: [**Active** during event hours on Thursday and 24 hours starting Saturday]
